Policy issue system — issues insurance policy based on individual information which is obtained from application form and host computer and compared

TOSHIBA KK 1997.12.22 1997JP-353248

T05 (1999.07.09) G06F 19/00, G06F 3/12, G07B 1/00

NOVELTY - Individual information of a candidate who has applied for insurance is obtained from the image of the application form read by a scanner (7), and from a host computer (1) and are compared. Possibility of issuing a policy is decided and policy is published based on the individual information.

Use: For controlling issue of insurance policy.

Advantage: Small scale policy issue system is such that only required information is acquired and policy is published based on that. DESCRIPTION OF DRAWING(S) - The figure shows block diagram representing the components of policy issue system. (1) Host computer; (7) Scanner. (13pp Dwg.No.1/14)
